FOSTERING RESEARCH IN VETERINARY MEDICINE: THE IMPACT OF THE SYMPOSIUM HELD BY THE VETERINARY SURGERY STUDY GROUP WITH SUBMISSION OF ACADEMIC WORKS

Luiza Sousa da Silva

Veterinary Doctor and President of
GECIVET Brazil

Anielly Mirelly de Assunção Ramalho

Veterinary Doctor and Director of the
Human Resources Department at GECIVET
Brazil

Amália Genete dos Santos

Veterinary doctor at the CCZ of Monte
Azul Paulista/SP City Hall and Director of
the Research and Extension Department of
GECIVET Brazil

Halana Meirinhos Pessoa

Graduation from ``Centro Universitário
Brasileiro`` - UNIBRA and Member of the
Marketing Department at GECIVET Brazil

Giovanna Torres dos Anjos

Graduation in Veterinary Medicine from
UniSALESIANO Araçatuba

Maria Eduarda Gil de Barros Silva
Graduation in Veterinary Medicine from
` `Universidade Federal de Juiz de Fora` `
and member of the Marketing department at
GECIVET Brazil

Geisiana Barbosa Gonçalves
Veterinary resident at the large animal
surgical medical clinic at the Large Animal
Teaching Hospital of ` `Universidade de
Brasília` ` and director of the public relations
department at GECIVET Brazil

Fernanda Miriam da Silva
Graduation in Veterinary Medicine from
the Santa Catarina Educational Society
(UNISOCIESC) and member of the Human
Resources department at GECIVET Brazil

Keywords: Retrospective study, Event,
Scientific Research, Repercussion.

In the academic scenario, symposiums represent fundamental events in the dissemination of knowledge, formation of networks through the exchange of experiences between professionals and students, scientific updates, as well as the stimulation of research. The promotion of these events on online platforms took on a prominent role during and after the pandemic, playing a crucial role in continuing various activities and meetings in a more practical and accessible way. In this context, the Brazilian Veterinary Surgery Study Group (GECIVET - Brazil) annually promotes symposiums dedicated to the field of study, covering subareas with the aim of expanding topics of interest to the academic and professional community, also aiming to offer opportunity to submit academic work. The purpose of this study was to analyze the impact of the Second National Symposium on Veterinary Surgery of GECIVET Brazil in promoting research in veterinary medicine. Interviews were carried out regarding the perception and experiences of the participants through a questionnaire carried out using the Google Forms tool, sent by email and an integrated analysis was carried out in a quantitative and qualitative way of the academic works submitted, evaluated by the scientific committee. The Symposium received 207 registrations, with the majority of those registered being veterinary medicine graduates. In addition, 43 academic works were submitted, of which 32 were approved by the scientific committee and 12 were invited to present their work at the Symposium. The analysis of the data collected highlights the relevance of the symposium for the enrichment of knowledge and scientific updating and the results of the committee's evaluations showed a significant amount of research submitted

with a good contribution to veterinary medicine. The Second National Symposium on Veterinary Surgery at GECIVET had a positive impact on promoting research in veterinary medicine, according to the results

obtained in this research. The event proved to be a valuable platform for the dissemination of scientific knowledge, providing relevant updates and exchanging experiences in the field.
